The dawn of a new chapter at Lincoln University in Pennsylvania is set to begin in an era marked by rapid technological progress and the evolution of social needs. As a pioneer of innovation, the University is proud to announce its first class of Innovation Fellows, four exceptional students who are ready to change the landscape of academic exploration and problem solving. The University Innovation Fellows program empowers students to become

agents of change at their schools. The Fellows are a global community that is leading an effort to ensure that all students acquire the attitudes, skills and knowledge necessary for their journey in this complex world.

Lincoln University proudly introduces its first class of Innovation Fellows, a groundbreaking step in the encouragement of innovation and excellence. Marcus Fequiere, a Senior majoring in Mass Communication, Jordan Hall, a Junior studying Psychology, McKayla Miller, a Senior pursuing a double major in Finance and Management, and Pujan Patel a Junior specializing in Finance stand at the forefront of a groundbreaking initiative.

"The goal was to really impact your campus. I thought that was dope," said Jordan in an interview I had with him. His sentiment echoes the broader mission of the University Innovation Fellows (UIF) program, aligning perfectly with our campaign's narrative. Jordan emphasized the transformative nature of UIF, stating that the program not only encourages innovation but also empowers students to take ownership of their campus environment. Faculty Champion Dr. Sam Williams spoke on these 4 students and his confidence in them in regards to the program. "I know my students, I know the work they're capable of doing and the valuable knowledge and experience they will get from this program will aid them in doing great things in their individual fields."

Lincoln University is proud to announce its inaugural class of Innovation Fellows, marking the beginning of a new era marked by technical progress and an increasingly complex societal need. These exceptional students embody curiosity, creativity, and forward thinking. The impact of these initiatives is not limited to the campus, but also reflects a broader mission aimed at fostering innovation and empowering students to shape their university environment. As

Lincoln University embraces this groundbreaking initiative, it anticipates a future shaped by pioneering solutions and transformative contributions.

In the dawning era of rapid technological progress and evolving societal needs at Lincoln University in Pennsylvania, the announcement of its first class of Innovation Fellows stands as a monumental step towards fostering innovation and excellence. Marcus Fequiere, Jordan Hall, McKayla Miller, and Pujan Patel, as pioneers of this groundbreaking initiative, symbolize the university's commitment to empowering students to become catalysts for change. The University Innovation Fellows program not only encourages innovation but also instills in students the attitudes, skills, and knowledge essential for navigating the complexities of the modern world. As Lincoln University anticipates the transformative impact of these initiatives, it envisions a future shaped by pioneering solutions and the invaluable contributions of its innovative students.
